

CLOUD HOSTING AGREEMENT

Synthetic sample document for academic testing only.

1. Hosting Services

The Provider shall host the Customer's applications and databases in its managed cloud environment.

2. Availability

The Provider targets monthly availability of 99.9% for production services.

3. Backup

Production data shall be backed up daily and retained for 30 days.

4. Disaster Recovery

The Provider shall maintain disaster recovery procedures with a recovery time objective of 6 hours.

5. Support

Critical incidents shall receive an initial response within 1 hour.

6. Fees

Monthly hosting fees shall be invoiced in advance and paid within 30 days.

7. Termination

Following termination, Customer data shall remain available for export for 60 days.
